SUMMARY

CEH v13-certified cybersecurity entry level professional with real-world exposure through internships, bug hunting, CTFs, and home lab. Skilled in Burp Suite, Nmap, Metasploit, Wireshark, and Splunk across penetration testing, vulnerability assessment, web app security, and SOC operations. Seeking a VAPT or SOC analyst role to apply a strong offensive and defensive security mindset within a professional security team.

EDUCATION

Parul University Bachelor of Technology in Cyber Security – CGPA: 8.24	Vadodara, Gujarat 2023 – 2027
V. Kendriya Vidyalaya Senior Secondary School – Percentage: 71%	Siwan, Bihar 2021 – 2023
J R Convent Secondary School – Percentage: 81%	Siwan, Bihar 2021

TECHNICAL SKILLS

Security Skills: Penetration Testing, Vulnerability Assessment, Web App Security, Network Security, OSINT
Security Tools: Burp Suite, Metasploit, Wireshark, Nmap, Nessus, SQLMap, Aircrack-ng, OWASP ZAP, Splunk
Attack Techniques: SQL Injection, XSS, IDOR, CSRF, CORS Misconfiguration, HTML Injection, Payload Crafting
Programming: Python, Java, SQL, Bash Scripting
Networking: TCP/IP Stack, Network Traffic Analysis, Packet Analysis, Network Protocols
Other: Reverse Engineering, Cryptography, Secure Coding Practices, CTF Competitions, Report Writing

EXPERIENCE

Cybersecurity Intern <i>Hacktify Cyber Security</i>	January 2025 <i>Remote</i>
- Performed in-depth web application security testing to identify and validate critical vulnerabilities, developed proof-of-concept exploits, solved advanced real-world CTF challenges, and collaborated with developers to strengthen secure coding practices and overall application security. - Enhanced understanding of real-world security challenges, vulnerability assessment methodologies, and industry-oriented cybersecurity practices.	
Cybersecurity Intern <i>Edunet Foundation — AICTE — IBM SkillsBuild</i>	February 2025 <i>Remote</i>
- Strengthened knowledge of cybersecurity principles, threat mitigation strategies, cryptography, and digital defense mechanisms through hands-on learning. - Enhanced practical understanding of real-world security challenges and industry-oriented cybersecurity practices.	

KEY PROJECTS

The-Setu – AI-Powered Career Development Platform <i>Tech Stack: React 18, TypeScript, Node.js, Express.js, MongoDB</i>	GitHub
- Built a full-stack platform with 3 user roles (Student, Mentor, Admin), JWT + OTP auth, and AI features including adaptive learning roadmaps, career prediction, and a Hybrid Job Board (Adzuna API + AI skill matching). - Designed RAG Based LLM Model to generate personalized learning roadmaps and built an Adaptive Learning Engine that analyzes quiz performance, identifies skill gaps, and dynamically injects targeted remediation steps.	

CERTIFICATIONS & TRAINING

- **Certified Ethical Hacker (CEHv13)** – EC-Council
- **Cybersecurity Foundataion Network Security** – Palo Alto Networks Cybersecurity Academy
- **Cryptography and Network Security Certification** –NPTEL
- **Certified Social Engineering Defense Practitioner Certification** –Sec-Ops

ACHIEVEMENTS

- Actively involved in Bug Bounty hunting and web application security testing, earning bounties through vulnerability reporting to support myself financially.
- Participated in multiple Capture The Flag competitions, demonstrating proficiency in web exploitation, cryptography, forensics, and reverse engineering challenges.
- Selected and completed PU Code Hackathon 3.0, a 36-hour national-level hackathon, building an interactive Web 2.0 solution under strict time constraints.
